

# Specialty Medical Insurance/Reinsurance

**At PartnerRe, we work with companies of all types to design and implement customized programs aimed at addressing the risk for clients capitalizing on new opportunities arising from healthcare reform – among them, Accountable Care Organizations (ACOs), Healthcare Cooperatives (CO-OPs), insurance exchange health plans, specialty carve-outs and bundled payment providers.**

The healthcare industry is under relentless pressure to improve quality and reduce costs, including legislation focused on improved healthcare risk sharing and financing. As a result, healthcare providers and other risk-assuming entities need to reassess how they can best provide quality care in a cost-effective manner.

PartnerRe has unsurpassed underwriting, actuarial and medical management expertise, backed by superior financial strength and risk-management knowledge. Our team has been providing focused risk solutions to the specialty medical field for almost 20 years, turning today's reform legislation into tomorrow's opportunities. We develop and implement customized programs suited to each client's specific needs – high-impact coverage that protects you for the long term.
